BACKGROUND

Imports AFG (Afghanistan Finest Goods)

About Imports AFG

Imports AFG (Afghanistan Finest Goods) was officially founded in 2003, It deals in the export of Dry fruits, Fresh fruits, Rice Saffron and Tea to the national and international markets, with the maximum possible standards and high-quality products, headquartered in USA with regional offices in Germany and Afghanistan.

We have been working nationally and internationally in the field of exports & imports since 1998. Imports AFG initiated to export natural agro products of all seasons from Afghanistan to USA, Germany and Canada under the patronage of our holding company “Export Service International” via harbors of neighboring countries.

As of the end of 1999 Imports AFG could launch business successfully with two contractors in Canada and Australia respectively. Gradually, Imports AFG increased its business in bulk. As by end of 2000, we exported several kinds of cereals, nuts, fresh fruits and dried fruits like raisins, pine nuts, walnuts, peas, almonds, dried mulberries, dried apricots, prunes, rice, dried yoghurt, grape leaves, saffron and other bio products of Afghanistan to Pakistan, India, Canada and Australia.

Constantly, Imports AFG processed and exported inter alia cereals and dried fruits from Afghanistan via Pakistan borders to Canada, Australia, Europe, Saudi Arabia and India. Since 2003 Imports AFG started business independently in Afghanistan by the brand name of Imports AFG and succeeded to get a business license from the Ministry of Commerce (MOC) in the same year.

Our Mission

is to produce and continually develop high quality products at an appropriate price while fostering a climate where Afghan human resources and raw materials, can thrive and contribute on national and regional level with high standard values while keeping in view the satisfaction and consent of our valuable customers.

Our Mission

To be a leading national and international integrated trade Company, highly profitable and socially responsible towards employees, community and environment. To significantly grow products through the safe and efficient development of our products.

3-Rolled Apricot

The Best quality organic dried Apricot imported, rolled apricots are also known in the Middle East as Chapie Namak and Double Twisted Apricot. This product is considered to be a specially dried fruit from Afghanistan because of the variety and the method it is prepared.

The notable characteristics that sets this product apart from other dried apricots is the elongated and twisted texture of this dried fruit. This product is prepared from over-ripped apricots, the pits are removed and a hint of salt is added to help with the drying process. The apricots are then twisting within itself to the shape seen and set to dry under the sun. This process allows for a more natural way of drying the fruit without the use of any chemicals or pesticides.
